## Product Description

<b>Product Name</b>	Cold Extracted Tuna Fish Oil
<b>Product Code</b>	C-01
<b>Description</b>	Cold Extracted Tuna Oil is manufactured from fresh raw tuna heads originating from EU approved factories.
<b>Storage</b>	The finished product is stored and distributed under refrigerated conditions, flushed with nitrogen.
<b>Raw Material</b>	Fresh Raw tuna heads
<b>Product Characteristics</b>	<ul style="list-style-type: none"><li>• EPA <math>6 \pm 1\%</math></li><li>• DHA <math>26 \pm 1\%</math></li><li>• Iodine Value <math>&gt; 180</math></li><li>• FFA (*) <math>&lt; 3\%</math></li><li>• Acid Value (*) max 6 mg KOH/g (max)</li><li>• Peroxide Value (*) <math>&lt; 10</math> Meq./Kg</li><li>• Anisidine Value <math>&lt; 30</math></li><li>• Unsaponifiable Matter – max 2%</li><li>• Moisture + Impurities <math>&lt; 0.5\%</math></li><li>• Food grade anti-oxidant (Tocopherol based) added</li><li>• Colour: Gardner Scale: 4 - 5</li></ul> <p>Note: Parameters represented by (*) sign represent values at the time of loading</p>
<b>Intended Use</b>	Finished products intended for Human Consumption.
<b>Packaging</b>	Flexi-Tank 24000 L Flushed with Nitrogen
<b>Labeling Instruction</b>	Fish Oil for Human Consumption.
<b>Shelf life &amp; Storage conditions</b>	The product should be used before 12months if stored under refrigerated conditions.
<b>Distribution</b>	Product is shipped in refrigerated reefer containers
