Product Description

Product Name	Winterised Cold Extracted Tuna Fish Oil
Product Code	W-01
Description	Winterised Cold Extracted Tuna Fish Oil is manufactured from fresh tuna heads originating from EU approved tuna processing factories.
Storage	The finished product is stored and distributed at ambient temperature, flushed with nitrogen.
Raw Material	Raw tuna heads
Product Characteristics	<ul style="list-style-type: none">• EPA $6 \pm 1\%$• DHA $26 \pm 1\%$• Iodine Value > 180• FFA (*) $< 3\%$• Acid Value (*) max 6 mg KOH/g (max)• Peroxide Value (*) < 10 Meq./Kg• Moisture $< 0.5\%$• Unsaponifiable Matter – max 2%• Colour: Gardner Scale 3 - 4 <p>Note: Parameters represented by (*) sign represent values at the time of loading</p>
Intended Use	Finished products intended for Human Consumption
Packaging	Flexi-Tanks 24000L Flushed with Nitrogen
Labeling Instruction	Fish Oil for Human Consumption
Shelf life & Storage conditions	The product should be used before 12 months if stored at ambient temperature.
